

Subject Company: Cascade Microtech, Inc.
(Commission File No.: 000-51072)

Hi all,

As you may have seen earlier today, we announced the combination of FormFactor and Cascade Microtech. Cascade is a publicly-traded supplier of test equipment and consumables to the semiconductor industry with a long history of leadership in high-frequency RF and precision electrical measurements. You can find more information about them at www.cascademicrotech.com.

This is an exciting day for both companies. By combining forces, we are able to accomplish goals that neither company alone would be able to achieve. For more details, please see the press release and slide deck that we published today on our external website.

In summary, by this transaction:

- We create significant scale by combining leadership positions in complementary semiconductor test markets with 2015 pro-forma sales of \$426M
- We further improve our profitability, with 2015 non-GAAP pro-forma gross margins of 42% and earnings-per-share (EPS) of \$0.65
- We improve our diversification by expanding both our served and available markets, as well as our customer base
- We gain access to the increasingly important engineering test and measurement market, with products and solutions that help customers improve their yields early in device and node ramps
- We unlock balance sheet assets by putting our \$190M of cash to work and monetizing \$295M of NOLs
- We will add \$150M in debt, which aligns our capital structure closer to industry norms and is enabled by our demonstrated ability to generate significant cash from operations

Details of the agreed transaction are as follows:

- FormFactor will acquire all the outstanding shares of Cascade

- Each Cascade shareholder will receive \$16.00 per share in cash and 0.6534 of a FormFactor share, for a total consideration of \$21.13 per Cascade share, and an aggregate consideration of \$352M
- We expect the transaction to close by mid-2016

I look forward to working with the combined FormFactor and Cascade teams and to serving as the CEO of the combined company, which will retain the FormFactor name. Until the transaction closes, it will largely be “business as usual” for the two companies, although we will continue the organizational and integration planning which is already in process. To that end, we plan to retain the existing Cascade operating structure, with the Probes, Systems, and Integrated Measurement Systems Business Units remaining in their current state. The three General Managers of these respective units have agreed to join the FormFactor team following closing, to lead their teams and continue to deliver the impressive business results that have fueled Cascade’s recent growth. For the Sales, Service, and G&A functions, we will work together in a thoughtful and measured way to combine the best of the teams and processes from both companies, as we did with the MicroProbe acquisition. In all of this, our primary objective is to ensure that we continue to win business, make and keep aggressive customer and partner commitments, and deliver impressive business results.

When you get the opportunity, please join me in welcoming the Cascade team to FormFactor, as we take this next step in building and strengthening our company.

Thx,
Mike Slessor, Ph.D.
